## Introduction to your Publisher Account

### Navigation Menu and Account Snapshot

Once you are registered with the Adobe Affiliate Program, you will be able to access your publisher navigation menu, showing a snapshot of your account. The account balance displayed on the first page of the interface is the amount generated since the last payment and will be validated in the following month. Click on „Account balance“ for a breakdown of events.

Account balance 1278.20 USD

The account snapshot provides a quick overview of your website(s) and/or media channels over a given time period. You can select a specific website and specify a time period.

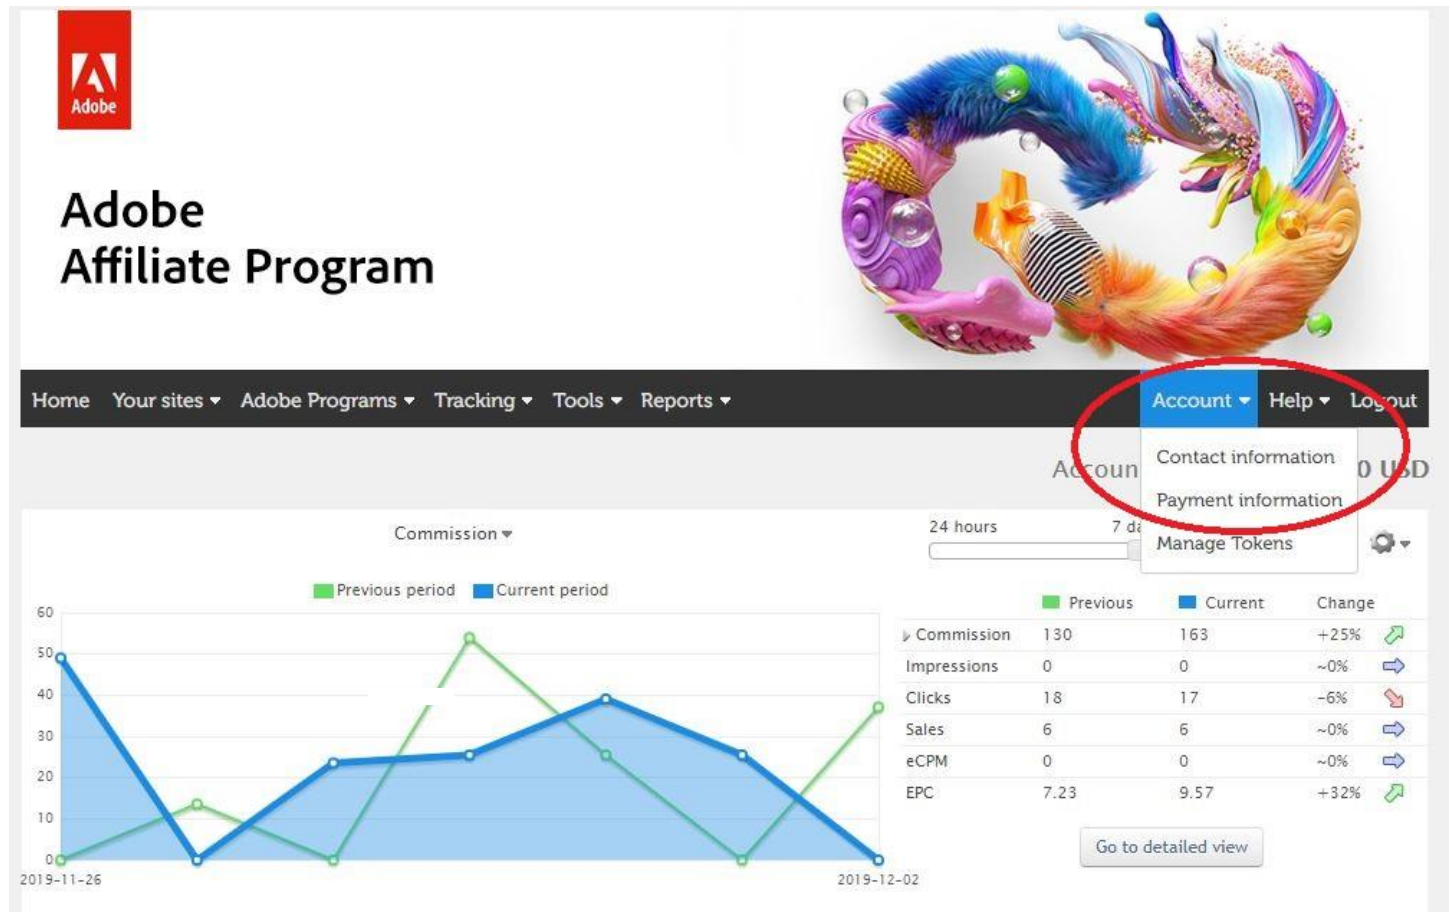

## Publisher Account Settings

### Contact Information

Enter your full contact information by selecting >> **Account** >> **Contact Information**. Fill in your information and sign up for important **program emails and newsletters**.

Please note that you will not receive information on many important program updates if you do not activate the email notifications in this section.

## Payment Information

Enter your payment information by selecting >> **Account** >> **Payment Information**. This information is required to receive commission payments.

NOTE: If you need to change the **Business Type** or **Bank Account Country** after you initially completed the payment information; please contact the [Adobe Affiliate Team](#).

## Payment Information

**Important information:**

- Please enter your contact information and bank details carefully. Incorrect details will prevent you from receiving payment.
- Any changes on this page require verification. The system will temporarily block your payments, until we confirm the changes. Please contact [AdobeAffiliates@arvato.com](mailto:AdobeAffiliates@arvato.com) with your site ID, username and the changes you made.
- Commissions ready for payment will be transferred automatically to your bank account on the payment date shown at the top of the Account Balance Breakdown Report.
- Your information is kept secure using SSL (Secure Socket Layer) encryption technology, the industry standard for information security.

**Please choose between two payment options:**

### 1) Direct Bank Transfer via Tradedoubler

Choose **'Tradedoubler'** as your **'Payment Provider'** below, if you are in a program within the regions for currencies below and would like to be paid in one of the currencies:

- US Dollar (USD)
- Swiss Franc (CHF)
- Danish Krone (DKK)
- Euro (EUR)
- British Pound (GBP)
- Norwegian Krone (NOK)
- Polish Zloty (PLN)
- Swedish Krona (SEK)

### 2) Payoneer digital payment service

Choose **'Payoneer'** as your **'Payment Provider'** below and align on your preferred currency:

- If you are part of a program outside of the regions for currencies listed in 1)
- If you want to get paid in a [different currency available through Payoneer](#).
- If your bank does NOT have a Swift code.

Note: A Payoneer account is required for this payment method, click [here](#) for more information. You will be redirected to the Payoneer site while completing payment registration. Fees vary depending on country and currency. Transfer fee between USD \$2 - \$4.50. Conversion rate between 0% - 2%. Click here for more information about [pricing and conversion fees](#).

## Site Verification

The verification process for your site is very important, as you will not be able to be connected to the Adobe Affiliate Program of any country until you have proved that you own the site or media channel you have registered.

In your publisher Navigation Menu please click on the blue box >> **Click Here**.

Click on the name of your site, you will see that your verification status is "not verified"

[Edit](#)

In order to verify your site(s), you will need to implement a code into the source code of your site. The instructions are explained in the interface

- Click >>Edit
- Follow the steps, described on screen:

Please verify your site

You will not be able to apply for programs until your site has been verified.

If you are unable to verify your site please contact Adobe Affiliate Support to request manual verification of your site

There are two ways to verify your site. Please choose either option:

**Option 1:**

Copy the meta tag below and paste it under the <HEAD> tag of the code of your sites homepage. [ See example] `<!-- TradeDoubler site verification 2775675 -->`

**Option 2:**

Create an empty file and simply name it: 2775675.html. Then save this file in the root of your webserver e.g. `http://www.test1.com/2775675.html`. You will need to access your hosting via your FTP or web browser to do this. [ See example]

Click the VERIFY button once you have followed the above instructions.

`http://www.test1.com` **Not Verified**

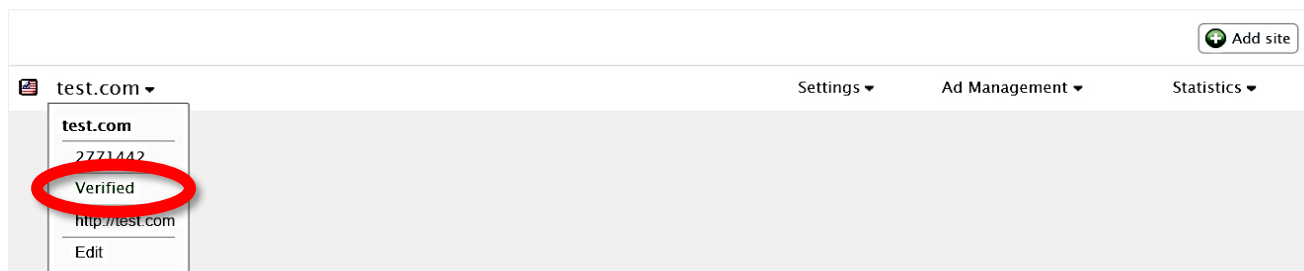

Verify Site

After completing option one or two, please do not forget to click “Verify Site”.

In order to verify a media channel (Facebook, YouTube, Instagram, etc.) follow these steps:

1. Ensure you channels email is visible and **matches the email account you signed up** with for the Affiliate program.
2. Insert your Tradedoubler site verification code (as described above) visibly into your channel.
3. Contact the [Adobe Affiliate Team](#) and ask to get your channel verified.
4. You can remove the Tradedoubler site verification code from your channel after our team has verified your channel.

Once the site is verified, your status will change to “Verified”,

A member of our team will review your site and connect your site to the appropriate program.

If you are unable to verify your site using the methods described from your account, then, you can contact the [Adobe Affiliate Team](#) who will be able to provide you the instructions for the verification.

## International Markets

The Adobe Affiliate Program is available in more than 60 markets worldwide and covers countries on every continent. If you want to work with banners in different languages and/or different currencies, you have to add your international site to your account.

### *Add your international websites*

You can add multiple websites in one publisher account. These websites can be added for different markets, or for the same markets if you own several websites or apps.

To add a new site, go to >>**Your Sites** >>**Add Site**

## Selecting Ads, Banners, and Links

### Banners

Once you have been accepted to the Adobe Affiliate Program for the country you wish to promote you can start adding ads to your website. Please select the program that you have applied and been accepted for, and then choose an ad from that program.

- On your Menu account choose >> **Tracking** >> **My Ads**
- If you have multiple websites select the correct program, click under >> **Program name**

The screenshot shows the Adobe Affiliate Program dashboard. At the top left is the Adobe logo. To its right is the text 'Adobe Affiliate Program'. Below this is a navigation bar with links: Home, Your sites, Adobe Programs, Tracking (circled in red), Tools, Reports, Account, Help, and Logout. Below the navigation bar is a section titled 'List programs' with a sub-section 'Accepted programs'. This section contains a dropdown menu for 'Choose country' set to 'All', and a list of three programs. Each program entry includes a URL, a 'Program name' label, and the program name itself. The third program, 'http://www.test.com (US)' with 'Program name' and 'Adobe Affiliate Program US', is circled in red.

When you click **Show code** a pop up opens with the HTML Code. Next, select options for the code and copy and paste onto your website. The Show Code popup displays different options depending on the type of ad.

The example below is the code for the banner:

1. Choose the website where the ad is to be published. You can only choose between websites with the status "Accepted".
2. Tick the checkbox to select:
  - Javascript
  - Custom
3. Use cache prevention (optional): Tick "enable", cache prevention is used to make sure that the browser does not cache the link and thus guarantees that all impressions are accounted for.
4. Copy the code and paste it into the HTML code of the website. It might take up to 15 minutes before images appear on the website.

### Show code

Choose one of the options below (for some graphical elements there may only be one option). Copy and paste the code to insert the graphical element on your site. JavaScript could, compared with other options, slow down your website but sometimes you need to use JavaScript since some graphical elements only work with JavaScript.

- Highlight the code for only one of the different types, copy it, and paste it to your page where you want the image to appear.
- You do not have to change anything, the code has been prepared with your ID.

### EPI

Enhanced Publisher Integration or EPI parameter allows you to uniquely identify a specific tracking link, and view performance data on how well each unique EPI encoded link has performed.

#### Setting up EPI

EPI requires one parameter, which you add to your tracking link and get actions reported on that parameter. The parameter can be letters, numbers or any combination thereof. The maximum length is 64 characters.

#### EPI Reporting

By implementing this parameters you will be able to identify which tracking links are generating sales. For EPI reports go to **Reports>> More Reports>> Event break down PLT**

### *Account Balance Breakdown Report*

This report gives an overview of the commissions you have earned but have not yet been paid out. It will give you information on the next payment date and the minimum payment threshold needed in order to generate payment. This report has three sections. Transactions not yet qualified for payment, transactions to be paid in the next payment and rejected payments.

|   |  |                    |                 |

| Total   |  |                    | 0.00            |

### *Rejected payments*

These are payments rejected by your bank. Make sure that you have entered your bank details correctly. If your details are not correct, the payment will not go through, and you will have to wait until the next payment period.

### *Payment*

The payment report displays transactions that have been paid to your account in the respective payment run. Click the sum in the **Sum converted** column for a breakdown of transactions where each transaction has its own row with detailed information. Commissions for sales and leads are broken down per transactions while click and impressions are aggregated per day. EPI information is also included, allowing you to attribute specific sales to specific custom events.

## Program overview

This report gives you an overview of all activities in one of your websites or a summary of all your websites. It gives a precise description of the website, program and specified time period. After running the report, you can click the double arrow in the **Link** column to select other reports for that program.

## Ad Report

This report shows how each ad has performed. Make sure to update those ads that are not effective. The report accumulates all traffic for one program and breaks it down per ad.

- **Impressions and Unique impressions:** Number of impressions/unique impressions the ad has generated. A unique impression is a page request from a visitor's browser within a predefined time period.
- **Clicks and CTR (Click through Rate):** Number of generated clicks, and CTR, the higher percentage the better the ad is performing.
- **Unique visitors (UV) and UVR (Unique Visitor rate):** Number of generated UV and the UVR.
- **Leads:** Number of generated leads, the value of leads and LR (Lead Rate), the higher percentage the better the ad is performing.
- **Order value:** Basket value of the sale made via the ad.
- **Commission:** The commission generated from the ad.
- **Key metrics:** eCPC (earnings per click), how much you earn each time the ad is clicked.
